ABOUT ME

I am a highly skilled and motivated software developer with a strong background in designing and developing scalable software solutions.

EXPERIENCE

BitsKraft, Naxal - *Software Developer (Angular JS)*

DECEMBER 2022 - PRESENT

- Working on Angular Framework to develop and deliver banking software
- Implemented RESTFul API's on Frontend
- Used tools like RxJs and NgRx for better and smooth performance.
- Delivered highly responsive web designs
- Coordinating with Team Lead, QA and other Developers
- Developing and Deploying applications for test and production
- Actively participated in Agile development processes, including sprint planning, daily stand-ups and retrospective meetings

Amtrix Technology, Chabail - *Software Developer (REACT JS)*

May 2022 - DECEMBER 2022

- Worked on React Js to develop user-oriented software for Healthcare Industries.
- Designing modern highly responsive web-based user interface.
- Coordinating with Team Lead, QA and other Developers.
- Working with other developers or Software engineers to develop system architecture that's well structured and flexible, along with APIs to support it.

EDUCATION

Islington College , Kathmandu - *Bachelor's Of Information Technology*

2019 - 2022

The Times International College , Kathmandu - *+2 Science*

2017 - 2019

SKILLS

- Familiar with web technologies such as **HTML/CSS, Javascript**
- Worked with frontend frameworks such as **Angular, REACT**
- Worked with backend frameworks such as **Spring Boot and Express.**
- Used DBMS such as **MySQL, PostgreSQL, MongoDB** for various projects.
- Skilled with **Git** (Version Control System)
- Familiar with working in multiple OS such as **Ubuntu** and **Windows.**
- Developing backend web services using **Java** and **Node JS.**

PROJECTS

Pharmedica, Pharmacy Inventory Management - Amtrix Technology

Pharmedica is a web-based pharmacy inventory management plus billing system which tries to eliminate the hassle regarding managing a pharmacy store. I was responsible for building and implementing the user-facing aspect of the website using React and other front-end technologies. I worked to deliver a seamless and intuitive user experience for the website's visitors

Internal Audit - Bitskraft Technology

Internal Audit is a web-based audit management software designed to enhance the internal audit process within an organization. It is a software that helps internal auditors plan, execute and manage their audit activities more effectively. I was responsible for building the user-interface of this particular website using **Angular**, Maintaining Backend using **Spring Boot.**

Mikha - Bitskraft Technology

MIKHA, next-generation AI enabled video collaboration solution is a highly secure enterprise-grade audio-visual communication platform. MIKHA offers scalable, feature-rich, and

flexible video platform for organizations ensuring their workflows (internal and external) remain resilient in the face of possible disruptions and stay connected with customers to provide virtual face-to-face service with integrated capabilities. Built a WebRTC App, Video banking system, using **Angular** and Vidyo.io.

Online Bhansa | Restaurant Management System - Personal Project

Online Bhansa is a Restaurant Management System, Web Application for admin and clients of Restaurant where Admin of the System can add food their prices and category , Client(Customer) can order food with one QR scan and pay food in Online Payment Method.
